To partners delivering parts and materials to Hamamatsu Photonics K.K.

As interest grew on the part of society with respect to the environment and international environmental regulations were beefed up, Hamamatsu Photonics decided to formulate "Green Procurement Guidelines" and "Green Procurement Management Standard for Chemical Substances", and to promote involvement in environmental concerns. We ask our business partners for their understanding and cooperation in this effort, and to conform to these guidelines and standards when delivering products and materials to us.

■ Important information

NEW October 1, 2023

We revised "Management Standard for Chemical Substances" to 20th edition. With this revision, other documents and files for supplier survey were also changed.

Main points of this revision are followings;

Management Standard for Chemical Substances

1. Changed "The Environment-related Substances to be Controlled in Parts and Materials" from 47 to 49 groups
2. Changed the "Table 1." in response to the above

Please refer to Revision Records (V20.0) for more information.

The latest forms and tools for survey are available in this website.

We will ask you the details for survey request by e-mail.

[Management Standard for Chemical Substances \(V20.0\) \[701 KB/PDF\]](#) 📄

[Revision Records \(V20.0\) \[325 KB/PDF\]](#) 📄

Request for cooperation in supplier surveys

We would like to ask suppliers to answer below surveys to your parts and materials delivered to us. We will forward the survey request by email separately.

- Survey Sheet regarding Environment-related Substances to be Controlled in Parts and Materials
- Non-inclusion Warranty for Banned and Restricted Substances
- Non-use Certificate for Ozone-Depleting Substances in process*
- Non-use Certificate for Chlorinated Organic Solvent in process*

*Please submit only when we ask in our survey request

Survey tools

Please download the below files and use for your answer to supplier surveys.
