## 1. Qualitative Information Related to Consolidated Performance for the Second Quarter of This Fiscal Year

## (1) Operating Results

During the second quarter of this fiscal year (six months ended March 31, 2024), Japan's economy saw a pickup in corporate capital investment despite the impact of high prices and labor shortages, and improved earnings mainly in the non-manufacturing sector due to a recovery in inbound demand and other factors. However, the economic outlook remained uncertain and challenging due to accelerating inflation mainly in Europe and the US, the impact of monetary tightening in various countries, and concerns about a downturn in the Chinese economy.

Given these circumstances, the Group worked to secure net sales and earnings by making reforms in order to improve corporate value from both a financial and a non-financial perspective and promoting research and product development utilizing the proprietary photonics technologies.

As a result, we closed the second quarter with net sales of JPY 103,986 million, down by JPY 7,631 million (6.8%) compared with the same period one year ago. From an earnings perspective, operating profit was JPY 20,064 million, down by JPY 11,455 million (36.3%), ordinary profit was JPY 21,521 million, down by JPY 10,980 million (33.8%), and profit attributable to owners of parent was JPY 16,771 million, down by JPY 6,977 million (29.4%) from the same period one year ago, resulting in a decrease in both net sales and earnings year on year.

#### Operating results by segment are as follows:

Effective from the first quarter of this fiscal year, classifications of reportable segments have been changed. Details are as stated in "Segment and Other Information" of "Consolidated Financial Statements." In accordance with these changes, comparative analysis concerning the comparisons against the second quarter of the previous fiscal year stated below is based on figures restated to reflect segment classifications after the changes.

## (Electron Tube)

In photomultiplier tubes (PMT), imaging devices and light sources, while sales of PMT for academic applications such as high-energy physics experiments increased in the academic field, sales of PMT for semiconductor fabrication and inspection equipment decreased in the industrial field. In addition, sales of deuterium lamps for liquid chromatography and other analyzers decreased due to stagnant demand for applications such as analysis of pharmaceutical ingredients.

As a result, the Electron Tube business closed the second quarter with net sales of JPY 40,315 million, down by 1.8%, and operating profit of JPY 13,393 million, down by 23.1% from the same period one year ago. (Opto-semiconductor)

In opto-semiconductor devices, while sales of opto-semiconductor sensors such as photodiode arrays for high-energy physics experiments increased in the academic field due to continued orders from projects in Europe, sales of silicon photodiodes for X-ray CT decreased in the medical field due to the absence of the increase in orders, which had been the result of material shortages until the previous year. In addition, sales of flat panel sensors for dental use also decreased due to the impact of price competition due to the emergence of competitors overseas.

As a result, net sales in the Opto-semiconductor business were JPY 40,416 million, down by 20.4%, and operating profit was JPY 10,560 million, down by 39.1% from the same period one year ago. (Imaging and Measurement Instruments)

In image processing and measurement systems, sales of failure analysis systems for semiconductor devices were strong as they were praised for their ease of operation and high performance in line with market requirements and applications for logic and power semiconductors were expanded, and sales of digital slide scanners increased due to rising demand in Japan.

As a result, net sales for the Imaging and Measurement Instruments business were JPY 17,747 million, up by 19.4%, and operating profit was JPY 5,369 million, down by 2.1% from the same period one year ago. (Other)

Sales from other operations include the semiconductor laser business, hotel operations run by Iwata Grand Hotel Inc., a subsidiary, and business relating to the proprietary products of Beijing Hamamatsu Photon Techniques, Inc., which is also a subsidiary.

In our other businesses, net sales were JPY 5,507 million, up by 11.4%, and operating profit was JPY 848 million, down by 1.0% from the same period one year ago.
